

ManageEngine 
AssetExplorer

ManageEngine

A division of Zoho Corporation, a bootstrapped,
private, and profitable company

18+ years of
IT management
solutions expertise

180,000+
customers

2,500+
employees

90+ products &
free tools for IT
management

190+
countries

The common
challenges
faced by IT asset
management teams

Inability to maintain a composite asset inventory

Difficulty in tracking IT asset life cycles

Lack of a streamlined purchase and contract management process

Failed license compliance audits

Isolation of ITAM from IT service management (ITSM) processes

Insufficient data to aid strategic decision making

Asset Management
With
ManageEngine 

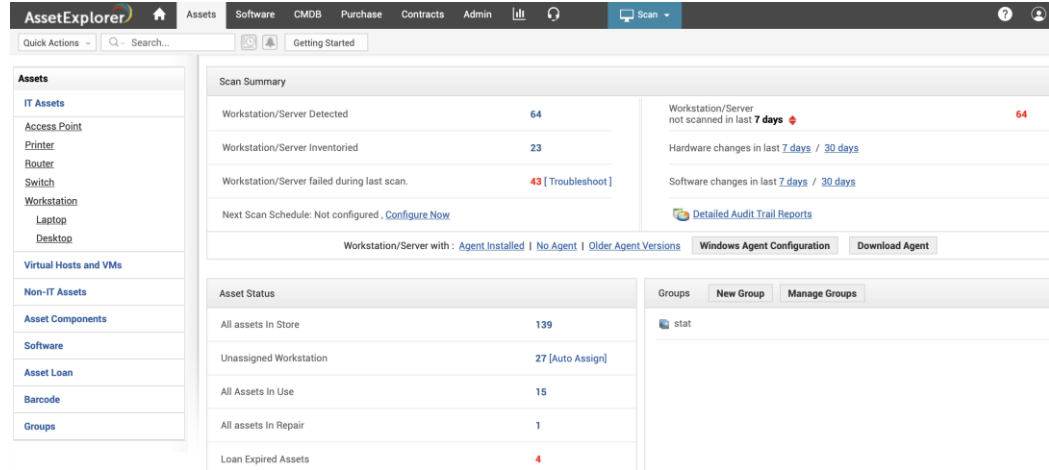

ManageEngine 
AssetExplorer
The all-in-one ITAM solution

**Why
AssetExplorer?**

1

A single source of truth about the IT infrastructure with all the hardware & software assets enabled through multi-source discovery

2

Complete control over the assets throughout the life cycle from procurement through disposal with custom asset statuses along with the ability to track ownership and auto-assign owners

3

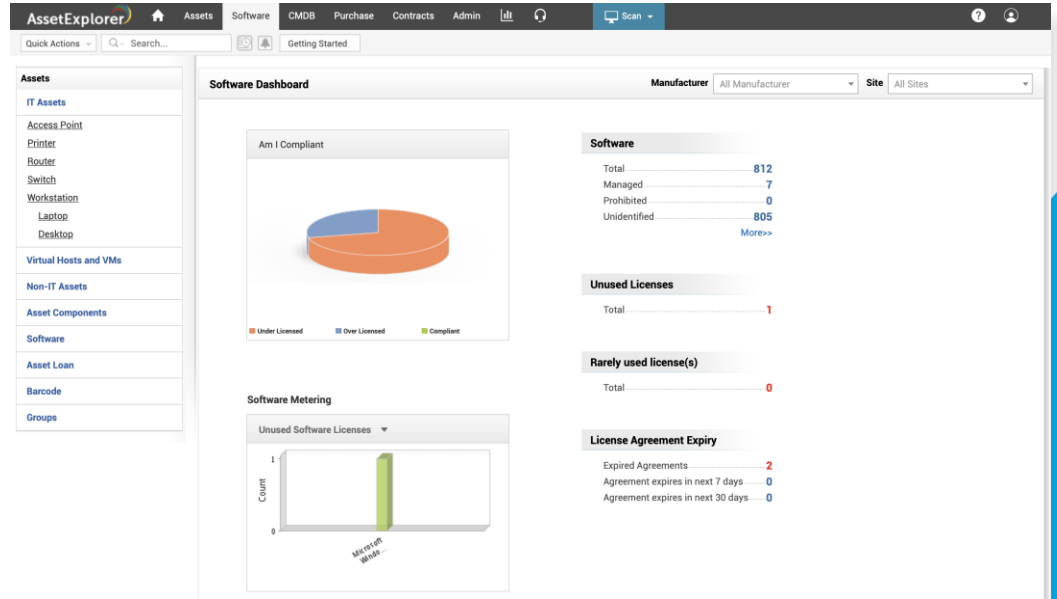

Ability to maximize ROI on vendor relationships with a vendor catalog, and associate the products supplied by each vendor with pricing, warranty, and maintenance details

The screenshot shows the 'Asset Explorer' interface with the 'Configuration Wizard' open. The 'Vendor' section is selected in the left-hand navigation menu. The main area displays a table of vendors with columns for Vendor Name, Currency, Contact Person, E-mail, Phone No., and Website. The table lists several vendors including Airtel India, ARP Facility Management Pvt. Ltd., Dell Inc., G4S Security, HP, Microsoft, Office Interior Design, and ZOHO Corp.

Vendor Name	Currency	Contact Person	E-mail	Phone No.	Website
Airtel India	Indian Rupee-INR	Karen Lu	121@airtel.com	95334825649	
ARP Facility Management Pvt. Ltd.	Indian Rupee-INR	Mr. L Ramchandran	arpfacility@gmail.com	9854335673	
Dell Inc.	US Dollar-USD	Mike Li		5468974247	
G4S Security	Indian Rupee-INR	Mr. Almanza	enquiries@in.g4s.com	+91 - 124 - 239 8888	www.g4s.com/in
HP	US Dollar-USD	David Schitt			
Microsoft	US Dollar-USD	Mora Lee		7634247996	
Office Interior Design	Indian Rupee-INR	Anna Lindorf	Hello@officeinteriordesign.in	070900 51112	officeinteriordesign.in
ZOHO Corp	Indian Rupee-INR				

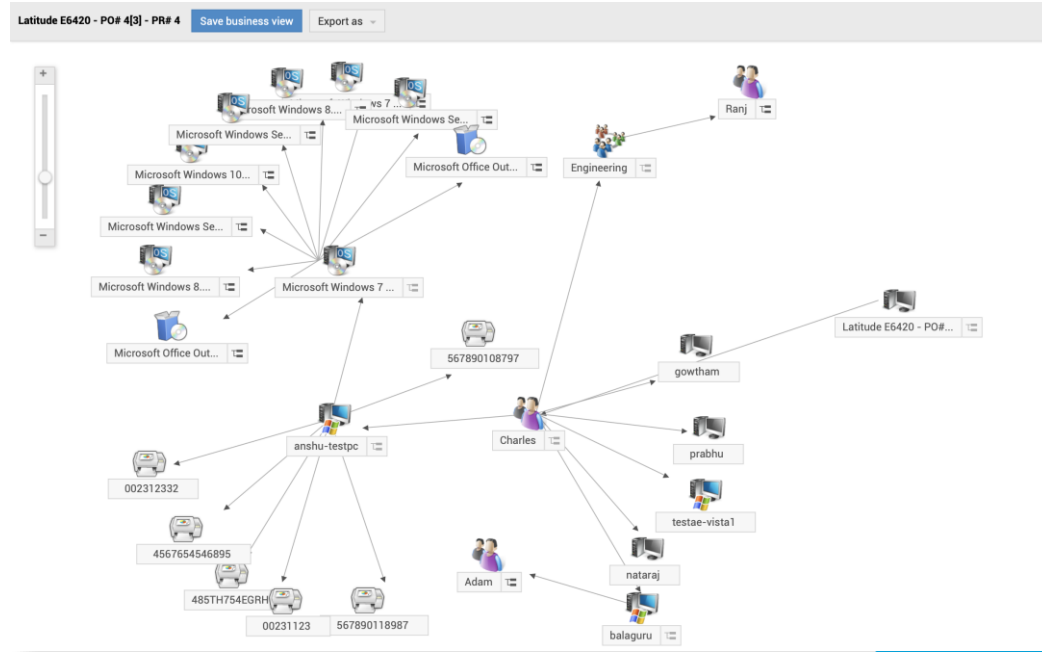

4

High software license compliance rates and lower risk of audit violations through built-in software license management with real-time software license metering and compliance dashboards

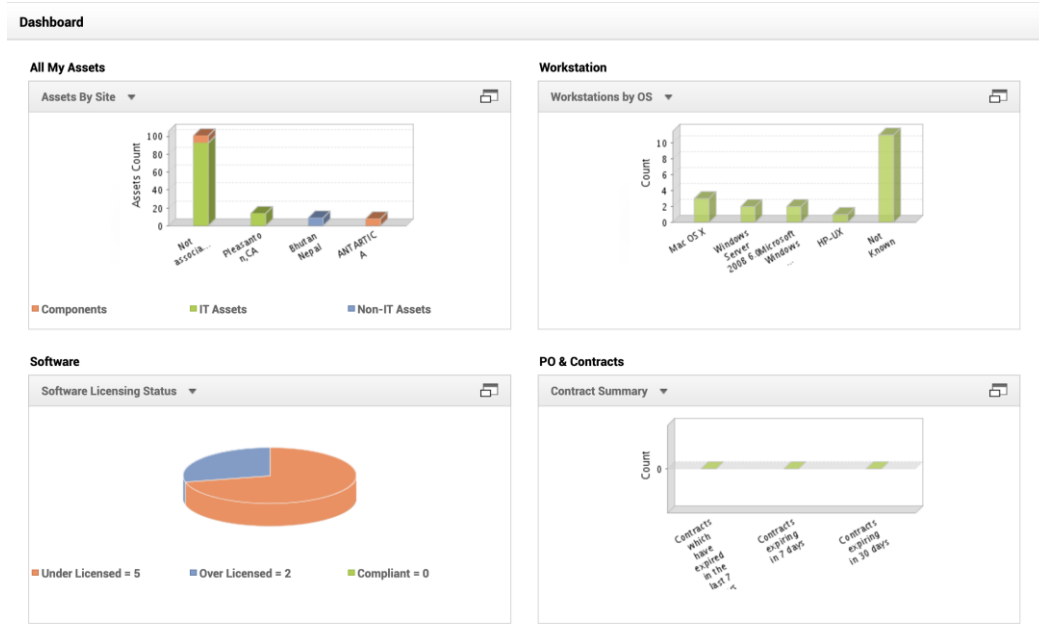

5

Reduced risks with proper impact analysis of incidents and changes through a visual map of all the dependencies and relationships between various assets built on a configuration management database (CMDB)

6

Easy access to real-time IT asset metrics via hardware and software dashboards, which provide the overall picture of all asset-related metrics including over licensed, under licensed, and compliant software details

Top ITAM capabilities

- Multi-source asset discovery
- Scheduled asset scans
- Real-time hardware and software asset dashboards
- Software license management and metering
- Software asset management
- Purchase order management
- Asset life cycle management
- IT asset inventory management
- Configuration management database (CMDB)
- Native Microsoft System Center Configuration Manager(SCCM) integration
