

ManageEngine 

PAM360

ManageEngine

is the enterprise IT management software division of ZOH O Corporation.

Privately held and profitable since inception

*Applications for business,
collaboration, and
productivity*

*IT management
solutions for enterprises*

*Enterprise IoT
management platform*

ManageEngine

18+ years of expertise
in IT management
solutions

180,000+
customers

2,500+
employees

90+ products and
free tools for IT
management

Global presence
in over 190+
countries

ManageEngine

BRINGING IT TOGETHER

IT service management

ITIL ready service desk

IT asset management
with CMDB

Knowledge base with user self-service

Built-in and custom workflows

Orchestrate all IT management functions

Reporting and analytics

Service management for all departments

Unified endpoint management

Desktop management

Mobile device management

Patch management

OS and software deployment

IT security management

Remote desktop support

Web browser security

Unified SIEM for cloud and on-premises

Monitor & control peripheral devices

AI driven user and entity behavior analytics

Firewall log analytics

SSH key and SSL certificate management

Endpoint device security

Data leakage prevention and risk assessment

Regulatory and privacy compliance

Available for

Enterprise IT
Managed service providers (MSPs)

as

Self hosted on-premises
Self hosted in public cloud (AWS, Azure)
Cloud (SaaS)

Identity & access management

Identity governance and administration

Privileged identity and access management

AD and Azure AD management and auditing

SSO for on-premises and cloud apps with MFA

Password self-service and sync

Office 365 & Exchange management and auditing

AD & Exchange -backup and recovery

IT operations management

Network, server and application performance monitoring

Bandwidth monitoring with traffic analysis

Network change & configuration management

Application discovery & dependency mapping

Cloud cost and infrastructure monitoring

End user experience monitoring

AIOps

Advanced IT analytics

Self-service IT analytics

Data visualization and business intelligence for IT

Hundreds of built-in reports and dashboards

Instant, flexible report creation

Out of the box support for multiple data sources

Our evolution in the PAM space

Modules at a glance

The 360-degree approach to privileged access security

Out-of-the-box integrations

Ticketing system integration

Certificate authority integration

CI/CD integration

Third party CA integration

SIEM Integration

Vulnerability Scanner - Insight VM

The screenshot displays the ManageEngine PAM360 interface for Vulnerability Scanner Integration. The top navigation bar includes the ManageEngine PAM360 logo, a search bar, and several utility icons. The main content area is titled "Vulnerability Scanner Integration" and "InsightVM". A table lists various services with their associated accounts, actions, and status. The table shows 13 rows of data, with the first two rows having a status of "Success" (blue circle) and the remaining 11 rows having a status of "Error" (grey circle). A pagination bar at the top right indicates "Showing 1 - 20 Total Count" and "Page 1". A vertical "Need Assistance?" button is located on the right side of the table.

InsightVM Service	Associate Account	Actions	Status
Concurrent Versioning System (CVS)	[Account Icon]	[Refresh] [Delete]	Success
DB2	[Account Icon]	[Refresh] [Delete]	Success
File Transfer Protocol (FTP)	[Account Icon]	[Refresh] [Delete]	Success
IBM AS/400	[Account Icon]	[Refresh] [Delete]	Error
Lotus Notes/Domino	[Account Icon]	[Refresh] [Delete]	Error
Microsoft SQL Server	[Account Icon]	[Refresh] [Delete]	Error
Microsoft Windows/Samba (SMB/CIFS)	[Account Icon]	[Refresh] [Delete]	Error
Microsoft Windows/Samba LM/NTLM Hash (SMB/CIFS)	[Account Icon]	[Refresh] [Delete]	Error
MySQL Server	[Account Icon]	[Refresh] [Delete]	Error
Oracle	[Account Icon]	[Refresh] [Delete]	Error
Post Office Protocol (POP)	[Account Icon]	[Refresh] [Delete]	Error
PostgreSQL	[Account Icon]	[Refresh] [Delete]	Error

Behavior Analytics - Anomaly detection

The image features a central dark blue horizontal band. The top and bottom sections are white, containing faint, light blue geometric shapes like triangles and polygons. The text 'Product architecture' is centered in the blue band in a yellow-green color.

Product architecture

High availability

Failover service for SQL cluster

Application scaling

The image features a dark blue horizontal band across the center. The background is white with faint, light blue geometric shapes, primarily triangles and polygons, scattered throughout. The text 'Components and delivery' is centered within the blue band in a bright yellow-green color.

Components and delivery

Components

- PAM360 server
- PAM360 agent (optional)
- PostgreSQL RDBMS – bundled by default.
- Includes options for configuring MS SQL / MySQL as back-end database

Delivery

- Delivered as an on-premise software installable
- Supported on Windows, Linux operating systems
- Virtualization support – Hyper V, VMware ESXI, Microsoft Azure, AWS (Amazon EC2) platforms

The image features a dark blue horizontal band across the center. The background is white with faint, light blue geometric shapes (triangles and polygons) scattered throughout. The text "Editions and licensing" is centered in the blue band in a yellow-green color.

Editions and licensing

➤ Single, all-inclusive pricing

➤ Licensing is based on the number of administrator users and keys managed

➤ Available in annual and perpetual subscription models

➤ Multiple editions to support varying requirements

➤ Supports both single and multitenant architectures

Thank you!
